Dear Mrs. Leavitt:

As I discussed with you a few weeks ago, we decided to permit a core hole on some of the Helper Associates lands which you leased to us. We recently submitted a permit to the Utah Division of Oil, Gas and Mining for that core hole. If the core hole provides us with favorable information, we may be able to convert it to a producing gas well later.

For your reference, I have attached a map showing the proposed location of the drill site. A copy of the permit which has been submitted to the Statea is also attached. The Division of Oil, Gas and Mining requires documentation that the owner of private lands acknowledge consent for such proposed activity. This consent is also required under Stipulation #4 of the special provisions listed in EXHIBIT "A" to our Oil, Gas and Mineral Lease with you.

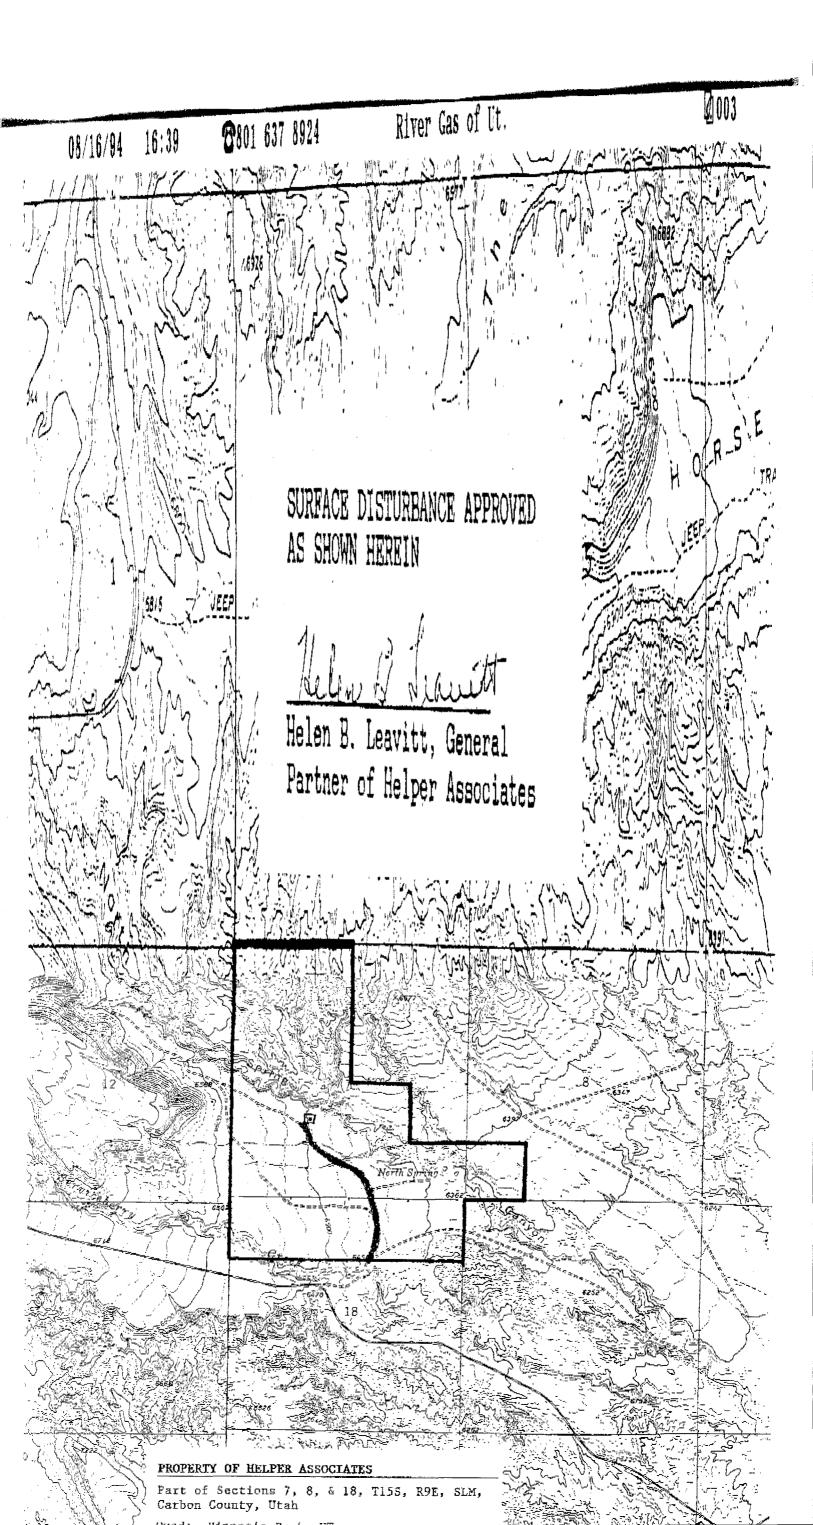

This letter will be hand delivered to you by one of our employees in Price. That employee can take you up to the property and show you the proposed well site. That site has been surveyed as shown on the plat which we submitted with the permit. We will be using existing roads into the site as shown on the attached map.

To ensure compliance with the terms of our lease, and in order to provide the State with documentation of your approval of this surface disturbance/use associated with drilling this well, please sign in the space provided below. I also need you to sign the attached map. Our employee will return this letter and map to me. I will then forward them to the Division of Oil, Gas and Mining so that they can finalize their review of the permit application.

If you have any questions on this request, please call me collect.

Sincerely yours,

SOIL TYPE AND CHARACTERISTICS: Clayey soil derived from the erosion of the Mancos Shale; some sandstone conglomerates in the alluvium.

SURFACE FORMATION & CHARACTERISTICS: Mancos Shale overlain by coalesced Quaternary alluvial fans.

EROSION/SEDIMENTATION/STABILITY: location is stable but its margin is within 150' of a major arroyo (NE of location).

PALEONTOLOGICAL POTENTIAL: none

SUBSURFACE GEOLOGY

OBJECTIVES/DEPTHS: Ferron Sandstone Member coal interval @

32801

ABNORMAL PRESSURES-HIGH AND LOW: none - expected bottom hole pressure of 920#.

CULTURAL RESOURCES/ARCHAEOLOGY: N.A.

CONSTRUCTION MATERIALS: Onsite materials will be used.

SITE RECLAMATION: Fee minerals therefore the reclamation is to a standard as defined in lease agreements with the lessor and is the responsibility of DOGM to monitor the performance of the reclamation.

RESERVE PIT

CHARACTERISTICS: 6' deep and 50'X 50'.

LINING: I have stipulated that the operator notify me when they want to dig the pit so that I may be present to make a liner determination at that time. I observed boulders near the surface at the edge of the large drainage which is about 150-200' from the margin of the location. The location will probably not be constructed for at least 2 weeks and possibly as much as 2 months.

MUD PROGRAM: Air to core depth and gel/water through the core interval.

DRILLING WATER SUPPLY: Price City water purchase.

OTHER OBSERVATIONS

STIPULATIONS FOR APD APPROVAL

- 1. Necessity for liner to be determined in field when notified that pit is to be dug.
- 2. There are four dry washes crossed by the access road. All are to receive 24" culverts except the one closest to the junction with the pre-existing road (18" culvert).

Re: River Gas Corporation Merger

Dear Ms. Cordova:

As you may recall, this office serves as Utah legal counsel for River Gas Corporation ("RGC"). Effective January 1, 1995, River Gas of Utah, Inc. ("RGU") merged into RGC as evidenced by the enclosed Certification of Articles of Merger issued by the Utah Department of Commerce. I have also enclosed a listing of all wells which, to the best of RGC's knowledge, RGU operated and an amendment to the Letter of Credit from RGU's surety recognizing the merger and confirming bond coverage for RGC.

Based on the enclosed documentation, please change your records to reflect that RGC is the current operator of all wells formerly operated by RGU. If a formal decision letter recognizing the merger is to be executed, please send the original to RGC at the following address:

River Gas Corporation Attention: Joseph L. Stephenson, Vice President-Land 511 Energy Center Blvd. Northport, Alabama 35476,

with a copy to me at the letterhead address.

As you may know, River Gas Corporation ("RGC") merged into Phillips Petroleum Company ("Phillips") effective December 31, 2000 at 11:59 p.m. I have enclosed a Certificate of Articles of Merger issued by the Utah Department of Commerce and, although duplicative, a sundry notice formally evidencing the merger for your records, and a list of all wells, including injection wells, formerly operated by RGC.

Please change the Division's records to reflect the change in operator of these wells from RGC to Phillips. All operational questions should be directed to Phillips at the following address:

Phillips Petroleum Company Attn: Billy Stacy, Operations Manager P.O. Box 3368 Englewood, CO 80155-3368 Telephone No.: (720) 344-4984

Phillips currently has a bond on file with the Division (a copy of which is enclosed for your reference), but I understand an \$80,000 Letter of Credit is in the process of being substituted.

Mr. Jim Thompson January 29, 2001 Page 2

On behalf of Phillips, I thank you for your cooperation. Should you have any further questions or concerns, please do not hesitate to contact me.

Yours very truly,

Frederick M. MacDonald

Oil and Gas

Merger Recognized

Acceptable evidence has been filed in this office concerning the merger of River Gas Corporation into Phillips Petroleum Company with Phillips Petroleum Company being the surviving entity.

The oil and gas lease files and rights-of-way files identified on the enclosed exhibit have been noted as to the merger. The exhibit is the list supplied by the representative of the companies, and verified by our computerized records. We have not adjudicated the case files to determine if the entity affected by the merger holds an interest in the leases identified, nor have we attempted to identify leases where the entity is the operator on the ground, maintaining no vested record title or operating rights interest. We are notifying the Minerals Management Service and all applicable BLM offices of the merger by a copy of this notice. If additional documentation for a change of operator is required by our Field Offices, you will be contacted by them.

By recognition of the merger the obligor is automatically changed by operation of law from River Gas Corporation to Phillips Petroleum Company on Letter of Credit No. P-207337 (BLM Bond No. UT0829). A rider to BLM Bond No. ES0048 assuming any and all liabilities of BLM Bond No. UT0829 must be submitted for approval to the Eastern States Office, Attn: Bill Forbes, 7450 Boston Boulevard, Springfield, VA 22153. After the rider is approved, the Letter of Credit will be returned to the financial institution that issued it.

Oil & Gas Leases

Merger/Name Change Recognized

Acceptable evidence was received in this office on January 14, 2003, concerning the change of name of Phillips Petroleum Company to ConocoPhillips Company and the merger of Conoco Incorporated into ConocoPhillips Company on Federal oil and gas leases, with ConocoPhillips Company being the surviving entity.

The Secretary of the State of Delaware certified the effective date of this merger effective December 31, 2002.

The oil and gas lease files identified on the enclosed exhibit have been noted to the merger. The exhibit was compiled from a list of leases obtained from your list of leases. Eastern States has not abstracted the lease files to determine if the entities affected by this merger hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested record title or operating rights interest. We are notifying the Minerals Management Service and all applicable Bureau of Land Management offices of this merger and name change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify other leases in which the merging entity maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

By Operation of law the name of the principal on Nationwide Oil and Gas Bond held by Conoco Incorporated (ES0085) has been changed to ConocoPhillips Company.

If you have any questions, please contact Bill Forbes at 703-440-1536.
